

**Prof. Dr. med.
Dirk Mürbe**

Prof. Mürbe is Professor for Audiology and Phoniatics and head of the Department of Audiology and Phoniatics at the Charité – Universitätsmedizin Berlin. He studied medicine at the Universities of Rostock, Dublin and Dresden and graduated at the same time in vocal studies at the Dresden University of Music with an artistic diploma. Being a specialist in communication disorders his main focus is phonosurgery and conservative treatment of patients with voice disorders, especially professional voice users. Another specialization is hearing and speech rehabilitation of patients with cochlear implants.

**Prof. Dr. med.
Tadeus Nawka**

Among the duties of Prof. Nawka is the care of patients with voice, breathing, and swallowing disorders. He is the president of the European Academy of Phoniatics (EAP) the educational branch of the Union of the European Phoniaticians (UEP). He is one of the editors of the European Manual of Medicine, Phoniatics, the textbook representing today's state of the art in phoniatics. His primary interest is voice with emphasis on diagnostics and therapy, in particular in phonosurgery.

3D Live-Surgery

BERLIN COURSE ON PHONOSURGERY 15TH TO 16TH MARCH 2023 CHARITÉ CAMPUS MITTE

DEAR COLLEAGUES,

We are pleased to be able to continue our phonosurgery courses at the Charité - Universitätsmedizin Berlin. The feedback from the past courses has encouraged us to keep the basic structure of this event. We want to discuss the indication and methods of phonosurgery with all participants. We will present how we treat our patients from the time they enter our department until the final post-operative care. History taking, listening, thorough diagnostics, finding a diagnosis, and careful treatment with constant monitoring of results are the main pillars of our daily practice.

In addition to lectures and case presentations, we demonstrate live surgeries in 3D projection with interactive contact with the surgeon.

The Department of Audiology and Phoniatics at Charité - Universitätsmedizin Berlin is a unique institution that covers all aspects of phoniatics on three sites. The location of the Charité Campus Mitte near the Reichstag and Tiergarten in the centre of historic Berlin is an inviting place not only for physicians but also for tourists. We are sure that you will savor the atmosphere of a lively yet serene capital city. We want to offer you time and space for knowledge exchange and lively conversations.

Be very welcome at the Charité, Berlin.

Prof. Dr. med. Dirk Mürbe
Head of the Department of
Audiology and Phoniatics

Prof. Dr. med. Tadeus Nawka
Head of the Charité Voice Centre
